

# Heard and McDonald Islands most efficient way to store energy

Where are Heard Island and McDonald Islands located?

Heard Island and McDonald Islands (HIMI) are a remote subantarctic island group located about 4,000 km south-west of Western Australia and approximately 1,700 km from the Antarctic continent. The HIMI exclusive economic zone (EEZ) abuts the French EEZ around the Kerguelen Islands.

Why are Heard Island and McDonald Islands isolated?

However, the site's isolation assists in reducing anthropogenic impacts upon the site's values. Heard Island and McDonald Islands are located in the Southern Ocean, approximately 1,700 km from the Antarctic continent and 4,100 km south-west of Perth.

Who manages the Heard & McDonald Islands?

The islands are administered under the Heard and McDonald Islands Act of 1953 and the Environment Protection and Management Ordinance of 1987 by the Antarctic Division of the national Department of Tourism, Arts & Environment (formerly the Department of the Arts, Sport, the Environment, Tourism & Territories, DASETT).

Why is Heard Island a good place to study recolonisation?

The Heard Island and McDonald Island group is one of the best sites in the world to study the ecological and biological processes of recolonisation of the Antarctic fur seal and the king penguin populations. It is also one of the best land-based sites in the world to study the leopard seal and its role in the sub-Antarctic ecosystem.

Why should you visit Heard and McDonald Islands?

Welcome to the guide for Heard and McDonald Islands, a remote archipelago in the Southern Indian Ocean. These islands are an untouched paradise offering unique landscapes, diverse wildlife, and rich history. Please note that tourism is highly regulated due to the fragile ecosystem and the territorial disputes.

## 2. Geography and History

Why are the McDonald Islands important?

The McDonald Islands are a collection of small islands with limited vegetation and no permanent inhabitants. They are important for seabirds, particularly wandering albatrosses that breed here.

## 3. Climate and Wildlife

Heard and McDonald Islands have a subantarctic climate characterized by cool summers and freezing winters.
