I see a lot of solar companies that run conduit all over your roof. SUNation runs all the conduit inside your attic and install critter guards around the outside of the panels which makes the finished installation look very nice. Also pay attention to the look of the solar panels you are buying. Some have more silver. Some have more black.

Heard Island and McDonald Islands are located in the Southern Ocean, approximately 1,700 km from the Antarctic continent and 4,100 km south-west of Perth. As the only volcanically active subantarctic islands they "open a window into the earth", thus providing the opportunity to observe ongoing geomorphic processes and glacial dynamics.

NORTHEAST HARBOR -- S.R. Tracy Inc. has installed 56 solar panels on the roof of its garage. The decision to do so came not long after Sam and Emily Burr bought the business last year. Sam's great-great grandfather, Seldon Rosebrook (S.R.) Tracy, started the eponymous painting company in 1895, and Sam took it over from his own father, Dave ...

The problem with leased systems is that the lease is transferable to the next property owner, the removal of the system for roof repair or replacement is to be done by the solar company only at the cost of the property owner and will cost thousands, you cannot upgrade the panels if your usage goes up or increase the system size because the ...
