

Hecate Energy and InfraRed Capital Partners have announced a partnership to form a new energy storage company called Hecate Grid, which will develop, build, own and operate utility-scale energy storage projects across North America.

Hecate Grid itself secured a US\$98.9 million credit facility shortly afterward, to recapitalize the storage IPP's operational assets and to fund a portfolio of projects in construction in Southern California.

Hecate Grid is a leading independent power producer focused on developing, building, owning, and operating stand-alone energy storage projects in the US. Hecate Grid has already successfully permitted, constructed, and operates several energy storage projects.

When razor-thin margins cut the difference between successful projects and those that are not, Hecate brings a rich brain trust of proven energy executives and their associated networks to bear and produces smart, sophisticated ...

Enhancing Grid Efficiency: With instant dispatchability, energy storage serves as both a power source and a power consumer, adapting to demand fluctuations and optimizing grid efficiency. This improved operational flexibility reduces transmission congestion, enhances overall grid performance, and curtails system costs.

CHICAGO - June 18, 2024 -- Hecate Grid, a joint venture between an InfraRed Capital Partners managed fund ("InfraRed") and Hecate Energy, today announced the recent close of a 4-year \$125 million Letter of Credit ("LC") facility with Mitsubishi UFJ Financial Group ("MUFG"). The facility will be used to finance interconnection and ...
