

Who is Heckert solar?

We as Heckert Solar have been producing solar modules exclusively in Germany for 20 years and we want to continue to do this independently, sustainably and with the latest technologies. This requires strong partnerships that can be relied on in the long term.

Where is Heckert solar made?

Did you know that Heckert Solar ...Made in Germany. We produce exclusively in Germany. The first Heckert solar module was manufactured in September 2003 and one was proud of the 6 MW annual production capacity. 20 years later, Heckert Solar disposes of a manufacturing capacity of 800 MWp per year.

Is Heckert solar a good brand?

Thanks to the good reputation that Heckert Solar and the multi-certified NeMo® modules enjoy in the PV industry, the company has now received the "Top Brand PV" seal in the Module Germany category for the fourth time in a row.

Are Heckert solar modules safe?

Solar modules meet the strictest requirements with around 60 quality and safety tests. Deputy Minister of Energy of South Brazil, Evandro Fontana, visits Heckert Solar in Chemnitz and discusses ways of opening up the market with the module manufacturer from Chemnitz.

Does Heckert solar offer a home storage system?

With the integrated, backup power capable home storage system Symphon-E, Heckert Solar offers its own storage system for the first time. The modular complete system impresses above all with its technical maturity and ready-for-future ability. It perfectly rounds off the existing product range of Heckert Solar.

When will Intersolar & Heckert solar be available in Munich?

After almost three years of Corona break, an Intersolar with Heckert Solar took place again in Munich from 11-13 May 2022. The response was great. In addition to our Symphon-E home storage system, the new NeMo® 4.1 half-cell module for medium to large PV systems, which will be available from August 2022, could also be looked at.
