

The companies that form part of the HyET group create technologies that enable commercially viable, large scale access to decentral renewable energy sources. The primary objective of the HyET group is to develop a sustainable and ...

Fortescue Metals Group Ltd (FMG.AX) ?????????,?????????????? High Yield Energy Technologies (HyET) Group 60% ???,????????? ...

Australian based Fortescue Future Industries (FFI) has acquired a 60 per cent stake in Dutch based High yield Energy Technologies (HyET) Group and provided the majority share of financing for the expansion of HyET Solar's Dutch Solar PV factory.

HyET (High yield Energy Technologies) E-Trol is a fast growing energy technology start-up focusing on the development of low cost, high efficiency water electrolyzer systems for green ...

HyET Group. Companies of the HyET group provide technologies for low-cost, distributed power generation and commercially viable hydrogen production at high pressure . HyET Hydrogen B.V. being now partly owned by Fortescue Future Industries, fully supports Fortescue's approach to Sustainability and will adhere to their core values in their ...

The companies that form part of the HyET group create technologies that enable commercially viable, large scale access to decentral renewable energy sources. The primary objective of the HyET group is to develop a sustainable and profitable business based on the above objective.

Anglo American Platinum announces its investment alongside Shell Technology Ventures (STV) in High-Yield Energy Technologies (HyET), a Dutch company that has developed electrochemical hydrogen compression (EHC) technology that will support ...

Fortescue Future Industries (FFI) has extended its reach into the hydrogen ecosystem with the acquisition of a 60% stake in High Yield Energy Technologies (HyET) as the group targets supplying 15 million tonnes of green hydrogen by 2030.

HyET (High Yield Energy Technologies) NoCarbon is a fast growing energy technology start-up, focusing on the development of low cost, energy efficient electrochemical and thermochemical systems for decarbonization of our chemical and energy infrastructure. The technologies in our portfolio include, low temperature electrochemical capture and utilization of carbon dioxide, ...
