

Are lithium ion batteries a good energy storage system?

Lithium-ion batteries are the most favourable electrochemical energy storage system for electric vehicles and energy storage systems due to their high energy density, excellent self-discharging rate, high operation voltage, long cycle life, and no memory effect.

What are the applications of lithium batteries?

Some of the most common applications of Lithium Batteries are power backups mobile, laptops, and other commonly used consumer electronic goods. With more than 3,000 employees of which more than 300 are technical engineers, KIJIO Group is a China storage battery factory covering an area of more than 500,000.00 Square meters.

What are the certifications of our lithium-ion battery factory?

Our lithium-ion battery factory has successively passed the authoritative quality management system certification such as ISO9001, IATF16949, ISO14001, and ISO45001, and our products have also received international certifications such as MSDS, UN38.3, UL, IEC62619, JET, and BIS.
