

Should I buy a UPS battery backup in Peru?

If you're staying in Peru for a while and you want to use a desktop computer, buy a UPS battery backup (Uninterruptible Power Supply) so that you don't lose your work -- and potentially damage your computer -- when the power goes out.

What type of power outlet does Peru use?

Peru uses three different power outlet types. Expect to find Type A/B, which is common in North America, as well as Type C, which is the standard in most of Europe. The vast majority of Peruvian power outlets will accept either of these three types. However, a rare few outlets only take inputs from a specific region, either Type A/B or Type C.

Which power adapter should I buy in Peru?

Search for one with a European-style Type C input (two round poles) and an American-style Type A/B output (two vertical slits). This Power Adapter is a great option if you want to make sure your charging devices will be compatible throughout the country of Peru.

Are USB adapters cheap in Peru?

Adapters are cheap in Peru; some come with multiple USB outlets to charge more than one device. Keep in mind that an adapter is different from a converter. Adapters let you plug your device into a third-party outlet without converting the electricity voltage. Continue reading this article to learn more about converters.

What plugs are used in Peru?

The second plug used in Peru is the Type C, a two-pin plug used in much of Europe (but not the UK). These two plugs only work in their corresponding outlets and are not interchangeable. Sometimes you'll only have access to one outlet type, so it's always handy to have an adapter that covers both.

What is a whole home backup power solution?

Whole Home Backup Power Solution: The EcoFlow advanced whole home backup power solution consists of two EcoFlow DELTA Pro Portable Power Stations connected via the EcoFlow Double Voltage Hub. By chaining two EcoFlow DELTA Pros together, you can achieve 7.2kWh of power output.

You do need to prepare for the electricity in Peru. It has a unique combination of American plugs with 110 volts but also has European-style plugs with 220 volts. For example, our first hotel in Lima only had "Type C" European plugs at 220 volts. This is what we most commonly found, but Peru also has "Type A" 220-volt plugs.
