

Ever since 1981, we believe that the future world will be an environmental-friendly one; therefore, we focus on research and development of renewable energy products, including recycling combination houses, wind power and solar energy.

In 1999, our main business was solar power generation, and we set up our own factory for production. In 2003, we were the largest solar product supplier in Hong Kong with customers in 36 countries. In 2013, we were transformed into a leading provider of integrated solar wind solutions.

****Overview:**** This report provides a comprehensive analysis of the solar industry in China and Hong Kong, focusing on dynamic-content and undefined regions. The overview will cover the significance of this industry, its historical context, and the current state of solar energy production in these regions.
