What are the different types of Chinese hairpin?

There are many types of Chinese hairpin, such as zan, ji, chai, bu yao. Chinese hairpin or hair stick, called zan (?), ji (?) or chai (?) in Chinese, played a very important role in ancient Han Chinese people's life. In traditional Chinese culture, hair was considered as a part of the body that comes from one's parents.

What is a single stick hairpin?

A single stick hairpin is a single stick-shaped hairpin, also called a hair stick in a narrow sense, about 5 to 9 inches long. Usually made of wood, metal, jade, etc. Simple and easy to use, single-stick hairpins are the first choice for daily use. 2. Forked hairpin A forked hairpin is a type of hairpin consisting of two prongs.

Why do Han Chinese wear hairpins?

In traditional Chinese culture, hair was considered as a part of the body that comes from one's parents. One should treat his hair seriously, and adult Han Chinese can't cut their hair casually, so both men and women use hairpins to hold their long hair in place. Women's hairpin style even represents their social rank.

What does a single stick hairpin and a forked hairpin have in common?

What the forked hairpin and the single stick hairpin have in common is that they can both be used to curl hair, and they can make flowers, birds, insects, fish, birds, animals, dragons, and phoenixes shapes on the head. 3. Hair crown The hair crown consists of a crown and a single hairpin.
