

How to paint the outer fan blades of a generator

How to paint ceiling fan blades?

Also, spray paint dries faster. Enamel is also the recommended paint type for painting fan blades. It is ideal because it leaves a durable and easy-to-clean finish on blades. Step 1: Start the paint preparation by turning off the ceiling fan. If you are to remove the blades from the fan, you can simply flip the switch off.

Can you paint a stand fan blade?

Painting the blades of a stand fan is the same as painting the blades of a ceiling fan. But for this fan, you'll need fewer items as listed below: Begin by unplugging the fan. Remove the grill and blades so that these parts would be completely separated from the fan.

How to paint a ceiling fan?

Step 1: Start the paint preparation by turning off the ceiling fan. If you are to remove the blades from the fan, you can simply flip the switch off. But if you plan on dismounting the entire ceiling fan, then you'll have to turn it off at the breaker. Step 2: After that, you'll need to clean the ceiling fan first before painting.

What color should ceiling fan blades be painted?

Even the color of the furniture in the room can be considered in choosing the new color of the fan blades. If you're unsure as to which color to paint the ceiling fan blades, choose from neutral colors like ivory, gray, and taupe. These colors can complement many home decors and furniture.

Can you paint wood fan blades with enamel paint?

Enamel paints dry hard, providing a durable, easy to clean, long-lasting finish. Most professionals recommend painting wood fan blades with only oil-based paints.

How do you sand a fan blade?

Fan blades will need to be thoroughly cleaned. Any old paint should be scraped or sanded down if it is chipped or peeling. Once they are clean and dry, lightly sand the entire surface of the fan blades with fine-grit sandpaper to enable the paint to stick better. Be sure to get the edges! Click [here](#) to find these 120 grit sanding sponges on Amazon.

To paint fan blades like a pro: Sand the blades lightly (I used a block sander). This helps the paint adhere well. Use a small foam roller (this is the trick!) to paint the sides ...
