

What does a solar quote include?

Most solar quotes feature three numbers: The contract price of the system, the value of incentives, and the net cost of the system after incentives. What solar quotes don't typically feature is an itemized cost breakdown of the equipment, labor, and other soft costs.

How do I compare solar quotes?

It can be difficult to compare quotes on the basis of those total costs. When professionals compare solar quotes, we look at a metric called cost per watt. It is simply the total system cost in dollars divided by the system's peak-rated output size in watts DC. This allows you to compare prices quoted for systems of different sizes easily.

Should I use a solar calculator?

Just having a baseline solar panel cost can help you avoid scams, reduce sticker shock, and give you a head start on saving up cash or improving your credit to secure financing. With that in mind, there are some limitations to using a solar calculator that it's worth pointing out, like a more granular breakdown of solar costs.

How much do solar panels cost?

Receive up-to-date information and news about what is going on in the solar industry, updates on our services and features, and more. Solar panels cost an average of \$19,000 to install. That's expensive - but there are ways to reduce solar costs and increase savings.

What should a comprehensive solar quote include?

A comprehensive solar quote should include: System Design and Size: Details about the layout, number of panels, and estimated system size (e.g., 10 kW). For more information, visit this guide on calculating solar system size. Equipment Specifications: Information on solar panels, inverters, mounting systems, and other components.

What should a rooftop solar quote include?

The main components of a rooftop solar installation are the solar panels, inverters, and batteries. A solar quote should, at minimum, include the brand name and model number for each component and information about the warranty coverage offered for these components. Here's some more information on what to look for:
