

Who is hoymiles power electronics?

We developed our one-of-a-kind marketplace with funding from the U.S. Department of Energy to make clean home energy solutions affordable and accessible to all. Read reviews for Hoymiles Power Electronics Inc., a Energy Efficiency, Solar PV, Energy Storage company since 2012 based in Gongshu District, Hangzhou.

Who is hoymiles?

Hoymiles is a global MLPE (Module Level Power Electronics) solution provider, specializing in module-level inverters (microinverters) and storage systems. With a vision of a clean, sustainable future, we strive to lead the smart energy industry through our rugged technology and reliable products.

Why did hoymiles start?

Hoymiles was founded by two power electronics doctors with a joint vision: to develop good technology that benefits the world. To make solar energy accessible to all, it needed to be commercialized, cutting costs and bringing equitable energy to as many people as possible.

Is hoymiles a good microinverter?

In 2015, Hoymiles microinverter achieved the world's No.1 CEC peak efficiency (96.7%) in California, the United States, by which Hoymiles was ranked worldwide as the most efficient microinverter, in comparison with other reputable and respectable microinverter brands.

Why should you choose hoymiles?

In the coldest, harshest environments. From compact balconies to sprawling installations. With Hoymiles, get tailored solar and storage solutions that you can count on- anywhere in the world. Save the planet and your energy bills. Gain true energy independence, so you can feel right at home with reliable solar and storage solutions.

Hoymiles is intended to provide high-performing solar inverters for everyone. Learn more about Hoymiles and join our journey to true open energy. ... Hoymiles was founded by Yang Bo, Zhao Yi, two power electronics majors at Zhejiang ...

Hoymiles was founded by Bo Yang and Yi Zhao, two power electronics majors at Zhejiang University, China's tier-one institution for research. Hoymiles was created to deliver on that mission: to make good technology more impactful by lowering its cost and making it ...
