

Who is Hyundai energy solutions?

Hyundai Energy Solutions is a solar panel manufacturer based in South Korea. The renewable energy branch started in 2004 and has since been spun off into its own company. Since its inception, Hyundai has become a global supplier of solar panels, selling in Europe, the United States, Australia, and throughout Asia.

How much do Hyundai solar panels cost?

Hyundai Energy Solutions offers two lines of residential solar panels: the XG Series and the YH Series. A home solar system using Hyundai solar panels could cost you between \$13,300 to \$19,600 after the federal solar tax credit, depending on the model and installer you use. This is right around the average cost of solar panels.

Who makes Hyundai solar panels?

Hyundai is one of the most recognizable names in the solar industry. The company started its solar business in 2005, and its solar panels are produced by a separate branch of the company that owns Hyundai Motors.

Are Hyundai solar panels a good choice?

Hyundai solar panels don't offer high efficiency, performance, or warranty coverage. However, they are a low-cost option, and if you have significant roof space and are interested in purchasing panels from a trusted brand, they can be a reasonable decision.

Are Hyundai solar panels bifacial?

The YH Series panels are bifacial, making them better for residential or small commercial ground-mounted systems. Hyundai solar panels come with a 25-year product warranty and a 25-year performance warranty. What types of solar panel models does Hyundai offer? Hyundai manufactures both commercial and residential solar panels.

Do Hyundai solar panels have a warranty?

Hyundai panels are covered by a 25-year product warranty that covers materials and workmanship. Most solar panel companies offer either a 10 or 12-year product warranty, putting Hyundai ahead of its competition. Hyundai's performance warranty also has a 25-year term.
