The DV Power BLU200A, Battery Load Unit is an automated, reliable, and powerful tool for battery

discharge test. The BLU200A is stand-alone or PC-controlled battery capacity lightweight (14,5 kg/32 lbs) test set, based on a ...

voltage is recommended. When you test power transformers, you can select any test voltage. You do not have to test power transformers with 100 V to have better accuracy of results. TRT devices have the same accuracy using 100 /80 V or 40 V or 10/8 V AC. The best accuracy is provided by TRT63 series . 2010 IBEKO Power AB, Sweden.
