

# If you don't pay you can remove the photovoltaic panels

Why should you hire a solar panel removal service?

A solar panel system is an intricate and complex power plant with electrical connections that only solar experts should handle. Considering a solar panel system is a large investment, it makes sense to only let experienced solar installers handle your solar panels and perform this solar panel removal service.

How do I request a solar panel removal & reinstallation?

Before we can proceed with your R&R, you'll need to confirm that your roof type is eligible for solar panel installation. Submit your R&R request to start the removal and/or reinstallation process from the Tesla app('App' > 'Energy Site' > 'Support' > 'Get Help' > 'Other' > 'Removal & Reinstallation').

How much does it cost to remove and reinstall solar panels?

For example, Palmetto typically charges \$225 per panel to remove and reinstall solar panels. While the cost to remove and reinstall solar panels depends on the solar company you choose, each company should be able to quote a base price for the work. Prepare to adjust your budget if your roof requires repairs before the panels can be reinstalled.

Why do solar panels need to be removed?

One of the most common reasons is for maintenance or repairs. Over time, solar panels can become damaged due to weather conditions such as hailstorms or heavy winds, and they may require repair or replacement. Another reason for removal could be if you're moving to a new home and want to take your solar panels with you.

Do I need to remove my existing solar panels?

Solar panel technology is constantly improving, with newer models offering better efficiency and power output. If you want to take advantage of these advancements, you may need to remove your existing solar panels to install the latest technology available.
