

What are inspired energy batteries?

The problem: Inspired Energy batteries were born out of demand from original equipment manufacturers (OEMs) to reduce the time and cost needed to find a suitable battery for their application. The solution: Pre-engineered Lithium Ion standard battery packs in a common form factor.

Does inspired energy offer SMBus compatible battery & chargers?

Inspired Energy offers a line of SMBus Compatible STANDARD BATTERIES for device manufacturers looking for a quality battery solution in a common form factor. We can also create a full custom battery & charger design for those applications where an "off-the-peg" design will not suit.

Are inspired energy batteries UL/CSA 62133 certified?

In 2018, Inspired Energy decided to qualify many of their products to meet IEC 62133:2012 (a unified international safety standard for rechargeable batteries) and UL/CSA 62133, which can be identified by the 'QE' suffix.

Where are our batteries made?

Products are designed and built at our facility in Newberry, Florida USA. Superior quality meets exceptional performance in every product we create. Our batteries are rigorously tested to meet the highest standards. Our products are approved & available worldwide. Your satisfaction is our priority. Speak with a real person for expert guidance.

All Inspired Energy battery packs are designed to meet or exceed IEC 62133-2 test standards. While there are mandatory testing requirements for lithium ion battery packs, agency approval is only necessary if the device containing the batteries requires it, or if the country where the device is sold mandates such approval.

Inspired Energy offers a variety of modified standard batteries, as listed below. Please note that many batteries look similar but operate very differently, and not every battery that fits into a device will operate it.

Inspired Energy offers a line of SMBus Compatible STANDARD BATTERIES for device manufacturers looking for a quality battery solution in a common form factor. We can also create a full custom battery & charger design for those applications where an ...
