

# Installing photovoltaic panels without gutters

Can you install solar panels without putting them on your roof?

Still, a portable solar panel can be convenient for short-term use. Solar panels can be installed as siding, sculptures, window glass, awnings, and even on the ground. Here's where you can install solar panels without putting them on your roof.

Can you collect electricity without putting solar panels on your roof?

Yes, it's possible to collect electricity from the sun without putting solar panels on your roof. If you want to take advantage of solar energy but you can't (or don't want to) put solar panels on your roof, you do have other options.

Should I go solar with a ground-mounted solar panel installation?

Here's what to consider if you're thinking about going solar with a ground-mounted solar panel installation. The biggest advantage with ground-mounted solar panels is that they offer greater control over your solar panel direction and angle. Solar panels need to face either south or southwest to receive maximum direct sunlight.

Do you need a bulky rooftop solar installation?

Luckily, you don't have to choose between a bulky rooftop solar installation or nothing at all. Homeowners have several options to make use of the sun's energy, from backyard solar panels to solar pergolas and beyond. Many of the best unique solar panel placement ideas integrate seamlessly into a home's exterior. Ready to dive in?

Are ground-mounted solar panels a good alternative to rooftop solar?

Ground-mounted solar panels are a great alternative for customers who want solar - but don't have a roof that's suitable for them. On top of being an alternative to rooftop solar, ground-mounted solar systems can be used on farms, in your garden, and more!

What is the best way to install solar panels?

Walkway pads should be used around the solar (and slip sheets are usually recommended underneath). Most importantly, the roof installation needs to be staged to facilitate the solar installation, considering both schedules. A successful solar installation is not just one that generates the required amount of electricity.
