

Isle of Man solar panel kit with battery and inverter

A Battery System can make full use of the power generated by your solar panels, ensuring that any unused power is stored on site to be used later when needed. If your electricity is supplied with two rates (a day rate and cheaper night rate), the solar + battery combination ensures that peak rate electricity usage is kept to a minimum.

Harness clean energy for your Isle of Man property with Manx Eco Installations. We specialize in solar panel and air source heat pump installations, delivering sustainable solutions for your ...

We install JA Solar and Sun Power Photovoltaic systems, on-roof, in-roof or ground mounted. We always recommend to use Solar Edge optimisers and inverters to boost output. Solar panel electricity systems, also known as photovoltaics (PV), ...

Manx Solar Electrical are the Isle of Man's exclusive Stiebel Eltron service partners. We are also a Mitsubishi ASHP service partner and Dimplex approved and accredited installers. Our engineers install high performance JA Solar / REC and Sun Power solar modules together with SolarEdge optimisers and inverters.

Camper van inverter kits. Camper van inverter kits allow you to install a Victron Phoenix inverter as part of your campervan electrical system. A Phoenix inverter converts the 12V DC current from your battery into 230V AC current. This allows you to power appliances that run off mains electricity from your leisure battery.
