

Who is Bord Gáis Energy?

Bord Gáis Energy already operates in the solar PV market- directly to residential customers and through its partnership with Irish Farmer's Association. It said the deal for Swyft Energy brings deeper solar PV capability to its residential as well as business and farming customers as the company transitions to a green energy business.

What will Bord Gáis Energy do for You?

With a target of 10,000 installations over the next five years, today's deal will allow Bord Gáis Energy to compete better for the growing demand for solar energy in residential, commercial and agricultural sectors. Customers can save an average of 50-70% on their electricity bills with the installation of rooftop solar panels.

Why is Bord Gáis repurposing its business?

Dave Kirwan, Managing Director of Bord Gáis Energy, said the company is fundamentally repurposing its business to seek to become a leading green energy business, working towards energising a greener, fairer future. "We make energy, we store it, we move it and we sell it."
