

Israel needs to adopt the European Union goal of 20 percent renewables by 2020 and this major milestone by Arava Power is proof positive that it can be reached. Furthermore, an injustice must be corrected by creating a special quota of solar fields for Bedouin land owners, who are locked out of the current solar program."

The app is really cool. The UI/UX design is well done and having 24/7 insight into what is happening to the system is fantastic! However, here are some few ideas to improve the app: The app should be able to tell users, how much energy they used and at what time they are using energy the most vs the least, when they're pulling from the grid, and when they're ...

Sunrun Inc. is an American provider of photovoltaic systems and battery energy storage products, primarily for residential customers. The company was established in 2007 and is headquartered in San Francisco, California. Since its inception, the company has focused primarily on a power purchase agreement (PPA) business model where Sunrun installs and maintains a solar ...

Sunrun makes it easy to transfer your solar lease agreement to the new homeowners. Our service transfer specialists handle everything from educating realtors and potential buyers to working with escrow officers, title agents, home inspectors, and anyone else who might need to know about your system or solar lease agreement.
