

What is Ivory Coast's gas strategy?

Last year, Ivory Coast's Minister of Mines, Petroleum and Energy Mamadou Sangafowa Coulibaly announced the country's strategy to fast-track the development of the country's gas reserves.

Who owns the Ivory Coast electricity company?

With 4 995 employees in 2022 and 54.02% owned by Eranove, the Ivory Coast Electricity Company (CIE) is a private provider that has been linked to the Ivory Coast's government by a concession agreement since 1990.

Is Ivory Coast pursuing natural gas?

In addition, Ivory Coast is pursuing natural gas within its transition strategy, with the Baleine field also set to produce 200 million cubic feet of gas per year by 2027. New Regulation Targets Local Capacity

Will a solar power plant power a new gold mine in Ivory Coast?

In April 2023, TotalEnergies entered into a partnership with Canadian mining operator Fortuna Silver to supply the new Siguila gold mine through a 6 MWp solar photovoltaic power plant, representing the first large-scale solar project at a mine in Ivory Coast.

Is Ivory Coast ready for a gas pipeline?

Ivory Coast is home to several planned pipeline developments set to facilitate its integration with the wider region. The country is one of 13 African nations through which the planned Morocco-Nigeria Gas Pipeline will run, establishing West Africa as Europe's premier energy trading partner and providing an export route for future gas production.

Will Ivory Coast become a major oil producer?

In recent years, Ivory Coast has also upgraded its state-owned Soci#233;t#233; ivoirienne de raffinage refinery to enable the production of low-sulfur fuels leveraging new technologies. Ivory Coast is aiming to become a major oil producer in the near-term future, as it yields new deepwater discoveries and unlocks cutting-edge net-zero technologies.

TotalEnergies and L'Ivoirienne d'H#233;v#233;a (IDH) have signed a partnership to develop a 5 MW solar photovoltaic power plant to supply IDH's production site with green energy. This project aims to install more than 8,200 photovoltaic panels, reinforcing IDH's commitment to sustainable development and the energy transition.

6 ???#0183; On 1 January 2021, the 12-year agreement signed last October between the Government of Ivory Coast and the country's integrated electricity utility CIE (Compagnie Ivoirienne d'Electricit#233;) became operational, establishing one of the first incentive-based regulatory regimes in Africa.

Ivory Coast aims to increase its installed power capacity to 3.5 GW by 2025 and 8.6 GW by 2040. As part of this strategy, the country's Ministry of Mines, Petroleum and Energy signed a memorandum of understanding ...

Ivory Coast's Ministry of Mines, Petroleum and Energy signed production sharing agreements for four offshore oil blocks with Eni in August this year. Under the agreements, Eni will invest over \$80 million in exploration ...

September 9, 2024: Italian engineering company Engitec Technologies is to deploy its innovative lead battery recycling technology to Ivory Coast. Installation of the modular CX Smart system is scheduled to take place in the West African nation in 2025, the International Lead Association reported on August 19.

Ivory Coast is trailblazing environmental stewardship alongside oil and gas development, with the Baleine field development set to be the first net-zero field in Africa. The country is prioritizing the use of decarbonization technologies to reduce its carbon footprint across the extractive sectors, from oil and gas to mining.

3 ???· ARIC, specializing in industrial refrigeration, displayed a solar cold room designed to reduce post-harvest losses by maintaining the cold chain and enabling product storage. This technology attracted visits from Mr. Mamadou ...

3 ???· ARIC, specializing in industrial refrigeration, displayed a solar cold room designed to reduce post-harvest losses by maintaining the cold chain and enabling product storage. This technology attracted visits from Mr. Mamadou Sangafowa Coulibaly, Minister of Mines, Oil and Energy, as well as Ms. Kandia Camara, President of the Senate.

Ivory Coast aims to increase its installed power capacity to 3.5 GW by 2025 and 8.6 GW by 2040. As part of this strategy, the country's Ministry of Mines, Petroleum and Energy signed a memorandum of understanding (MoU) with renewable energy company Kong Solaire earlier this month to construct a 50 MW solar power plant in the Tchologo region.

Ivory Coast's Ministry of Mines, Petroleum and Energy signed production sharing agreements for four offshore oil blocks with Eni in August this year. Under the agreements, Eni will invest over \$80 million in exploration activities across Blocks CI-504, CI-526, CI-706 and CI-708 over a three-year period.

The last week of February was for EDF Côte d'Ivoire a week dedicated to the Renewable Energy Technologies and Entrepreneurship Master's degree, known as the ETRE Master's degree, a partnership between X (Ecole Polytechnique de Paris) and INPHB (Institut National Polytechnique Houphouët-Boigny).

The "Ivory Coast Power & Electricity Expo" (ICPEE) is a trade fair focusing on the energy sector

is held annually at the Parc des Expositions d'Abidjan in Ivory Coast and organized by Atilim Fuarcilik Tic. Ltd. This expo is an essential meeting point for energy industry professionals and attracts an international audience keen on the latest innovations and technologies in energy ...
