Founded by Asia's most popular solar influencer, Mr. Deepak Chaudhary, who is also the solar expert and CMD of Nexus Solar Energy Pvt Ltd, DevSol Energy is dedicated to revolutionizing the solar industry.

How many MW is Paradise Park solar plant in Jamaica?

51 MW Paradise Park solar plant in Jamaica. The Jamaican government's Generation Procurement Entity has released tender documents inviting domestic and foreign proposals for utility-scale renewable energy projects.

How will JPS' energy projects affect Jamaica's energy grid?

The price will be determined by JPS. Collectively, the projects will produce 100 MW for Jamaica's electricity grid, with the aim of "increasing the share of renewable sources of energy in the country energy mix," according to the tender documents.

How long does a solar project take to run in Jamaica?

Solar projects must be commercially operational within two years from the execution date, and projects relying on other technologies will be required to be up and running within 30 months from the execution date. Projects will be recommended to be granted PPAs with Jamaica Public Service (JPS) Co. Ltd. acting as the single buyer.

The call for a government-owned electricity grid in Jamaica is a logical extension of the push for renewable energy. Public ownership would allow the government to make long-term investments in the energy sector that align with national interests rather than the profit-driven motives of a private monopoly like the Jamaica Public Service (JPS).

The Sol Group has strategically moved into the Caribbean energy market by acquiring one of Jamaica's solar producers, Content Solar. This acquisition is not a corporate maneuver; it's a game-changer for Jamaica's landscape and a signal of the country toward a renewable future.
