Individual sheet steel enclosure with the stable body, two sides of the integrated mounting sheet, front and rear doors. Fully compatible interior installation. Enclosure widths ranging from 600mm to 1800 mm. Time-saving assembly work due to the roll-formed side panels.

Free-standing enclosures are used to offer protection to large electronic equipment and controls. They are preferred when working with systems that require complex mounting configurations and are designed to feature the use of different materials in their manufacture.
