

Who is Jamaica Energy Partners?

Jamaica Energy Partners is an Independent Power Provider that began commercial operations in October 1995. It owns the Doctor Bird Power Plant, which encompasses the company's production facilities and is located at Old Harbour Bay, in the parish of St. Catherine.

What is Islands Energy Group?

Drawing on our diverse pool of experts to apply business intelligence to even the most complex challenges faced by the energy industry today. Islands Energy Group is focused on commercial sustainability and innovation within the islands' communities.

What is Jamaica's energy policy?

Jamaica's National Energy Policy, published in 2009, sets targets for renewable electricity generation, energy efficiency, and greenhouse gas emissions to be met by 2030. The policy document outlines Jamaica's comprehensive long-term energy plan.

What is the cost of electricity in Jamaica?

Jamaica's electricity cost is approximately \$0.39 per kilowatt-hour (kWh). This information is provided in the energy snapshot of Jamaica, an island nation located in the north Caribbean Sea. The utility rates are above the Caribbean regional average of \$0.33/kWh.

Does Jamaica use solar power?

Jamaica has yet to see large-scale development of solar power, with no utility-scale facilities installed to date. However, there are notable solar installations, such as the 1.6-MW rooftop array at the Grand Palladium Jamaica Resort & Spa and the combined 500 kW installed across 33 facilities by the Jamaica Broilers Group.

Why is electricity inexpensive in Jamaica?

Jamaica's electricity is inexpensive due to the fact that more than 94% of the island's electricity is generated from petroleum-based fuels. This leaves Jamaica highly dependent on imported fossil fuels and vulnerable to oil price and currency exchange fluctuations that directly impact the cost of electricity.
