

Johnson Energy Storage (JES) is a company that manufactures energy storage systems. Its products include lithium-ion batteries, oxy-sulfide glass electrolytes, and metal oxide cathode materials. The company caters to transportation, energy, ...

Our history spans over 30 years. Our Founder, Dr. Lonnie Johnson, has been an inventor, and had his first major success with the Super Soaker. Since then he's been focused on energy solutions, and has over 100 patents in his name. Our team continues on this path of innovation and excellence.

Johnson Energy Storage is rapidly advancing towards commercializing this cutting-edge solid-state battery technology. With its glass-based electrolyte and cost-effective production ...

Johnson Energy Storage's patented glass electrolyte separator suppresses lithium dendrites and is stable in contact with lithium metal and metal oxide cathode materials. [LEARN MORE](#) "We are an established, pioneering company that is the result of over 20 years of direct research into All-Solid-State-Batteries (ASSB).

Johnson Energy Storage (Southern Company) Johnson Energy Storage (JES) JES ...

Johnson Energy Storage is rapidly advancing towards commercializing this cutting-edge solid-state battery technology. With its glass-based electrolyte and cost-effective production methods, the company is poised to redefine energy storage standards and bring a ...
