AMMAN -- Minister of Energy and Mineral Resources Saleh Kharabsheh on Tuesday signed a memorandum of understanding (MoU) with Chairman of Mass Group Holding Company Ahmad Saleh to conduct feasibility studies for the development of green hydrogen projects in Jordan.

Mass Group Holding (MGH) has signed a memorandum of understanding (MoU) with Jordan's energy ministry to explore the development of green hydrogen projects across the country targeting the production of ...

This MoU marks the 14th agreement Jordan has signed in the fields of green hydrogen and green ammonia production, reflecting the country's commitment to expanding its renewable energy investments. To date, eight investors have submitted preliminary feasibility studies for green hydrogen projects in Jordan, with three of them nearing completion.

According to Jordan's National Hydrogen Strategy, which aligns with the Economic Modernisation Vision and the National Energy Strategy, the Kingdom has set ambitious renewable energy and hydrogen production targets. By 2030, Jordan aims to generate 8 gigawatts (GW) of renewable energy, increasing this to 22GW by 2040, and further to 47GW ...

Welcome to the LH ENERGY GROUP website! We are your partner in the world of renewable energy, specializing in the installation of photovoltaic systems for residential homes and industrial facilities. Our company was established with a single goal - to bring innovative solutions for efficient use of solar energy and to provide comprehensive ...

Somos una consultora especializada en soluciones fotovoltaicas y energ&#237;a solar para industrias y pymes. Optimizamos costos y mejoramos la eficiencia energ&#233;tica de tu empresa con tecnolog&#237;a

sustentable y asesoramiento experto. Transforma tu negocio con energa renovable.

Jordan takes a significant step towards green hydrogen production with Minister of Energy Saleh Kharabsheh signing an MoU with Mass Group Holding for feasibility studies on a new project, aiming for an annual production of 180,000 tonnes of green ammonia.
