

Belgian companies Solhyd, COOSHA Impact Venture and local partner Kaoko Green Energy Solutions (Pty) Ltd have partnered in the launch of hydrogen solar panels for cooking and cooling. Under the supervision of ...

Kaoko Green Energy Solutions and AW-Energy have appointed I.N.K Enviro Consultants to conduct the environmental and social impact assessment (ESIA) for the WaveRoller wave energy pilot project.

AW-Energy, a leader in near-shore wave energy technology, has signed a Memorandum of Understanding (MoU) with Kaoko Green Energy Solutions (Pty) Ltd in Namibia. The MoU is devoted to the development of ...

Through the innovative application of Waveroller Technology, we are poised to revolutionize energy generation, commencing with a pilot project generating 200kW of clean energy between the coastal towns of Swakopmund and ...

FINLAND -- AW-Energy, a provider of near-shore wave energy technology, signed a memorandum of understanding (MoU) May 3 with Kaoko Green Energy Solutions (Pty) Ltd. in Namibia. The MoU is devoted to the ...

FINLAND -- AW-Energy, a provider of near-shore wave energy technology, signed a memorandum of understanding (MoU) May 3 with Kaoko Green Energy Solutions (Pty) Ltd. in Namibia. The MoU is devoted to the development of renewable energy and aims to produce green hydrogen from renewable energy sources including wave energy.

AW-Energy, a leader in near-shore wave energy technology, has signed a Memorandum of Understanding (MoU) with Kaoko Green Energy Solutions (Pty) Ltd in Namibia. The MoU is devoted to the development of renewable energy and aims to produce green H₂ from renewable energy sources including wave energy.

Through the innovative application of Waveroller Technology, we are poised to revolutionize energy generation, commencing with a pilot project generating 200kW of clean energy between the coastal towns of Swakopmund and Henties Bay.

Belgian companies Solhyd, COOSHA Impact Venture, and local partner Kaoko Green Energy Solutions (Pty) Ltd are pioneering the integration of hydrogen solar panels for cooking and cooling. Under the guidance of ...

Belgian companies Solhyd, COOSHA Impact Venture and local partner Kaoko Green Energy Solutions (Pty) Ltd have partnered in the launch of hydrogen solar panels for cooking and cooling. Under the supervision of

Professor Johan Martens from the Centre for Surface Chemistry and Catalysis, the unique, patented technology uses sunlight, splits the ...

Belgian companies Solhyd, COOSHA Impact Venture, and local partner Kaoko Green Energy Solutions (Pty) Ltd are pioneering the integration of hydrogen solar panels for cooking and cooling. Under the guidance of Professor Johan Martens, the patented technology harnesses sunlight to split water vapor into hydrogen and oxygen gas, offering a ...

In May 2023, Finnish wave technology developer AW-Energy signed a memorandum of understanding with Namibia's Kaoko Green Energy Solutions, agreeing on an initiative to produce green hydrogen from wave ...

Kaoko Green Energy Solutions is a Namibian private energy generation assets development company that uses solar, wave and wind energy sources to help reduce the production cost of green hydrogen.
