

Venture Global LNG, a US-based LNG company, has initiated legal action against construction contractor Kiewit, accusing the company of sharing confidential documents with Shell, reported Reuters.. The dispute centres on the Calcasieu Pass plant, which has been producing LNG for more than two years but has yet to supply its contract customers.

Kiewit is an extremely successful construction engineering firm operating in the civil, energy, and building sectors throughout the United States and Canada. Our expertise and market position are an excellent addition to their capabilities. Weeks will retain its name and management going forward.

Since ancient times, energy derived from falling or running water has been used as a source of renewable energy. China's ... Newsroom. Kiewit News; Kieways; Corporate Information ... Because it is located on an isolated island, Kiewit set up two camps. The main camp housed up to 70 people working on the dams, diversion pipeline and upstream ...

A Kiewit Corp. unit will design and build the first U.S.-made offshore wind substation--a 1,500-ton, 60-ft-tall structure to be deployed for the 132-MW, 12-turbine South Fork wind farm that is set for construction off New York's Long Island, said project developers Ørsted Offshore North America and Eversource Energy on Aug. 25.

Texas LNG Brownsville LLC ("Texas LNG"), a four million tonnes per annum ("MTPA") liquefied natural gas ("LNG") export terminal to be constructed in the Port of Brownsville, Texas, a subsidiary of Glenfarne Energy Transition, LLC ("Glenfarne"), has selected Kiewit, through its subsidiaries Kiewit Engineering Group Inc. and ...

BALTIMORE (AP) -- Maryland transportation leaders on Thursday approved a contract for rebuilding the Francis Scott Key Bridge several months after the 1.6-mile (2.6-kilometer) steel span collapsed under the impact of a massive container ship that lost power and crashed into one of its supporting columns. In the immediate aftermath of the deadly March 26 ...

Babcock & Wilcox announced today that as a preferred technology supplier, it will partner with Kiewit Industrial to deliver Fidelis New Energy's planned net-negative carbon impact biomass power plant at the Port of Greater Baton Rouge, Louisiana.

Kiewit engineered, procured and installed a 1.6-megawatt containerized battery energy storage system on Kauai, Hawaii. Due to a significant shift to solar for power generation on the island, the local grid was suffering from large frequency fluctuations. This energy storage system provided an important increase in electricity reliability, as 60 percent of the island's daytime [...]

Texas LNG Brownsville LLC, a subsidiary of Glenfarne Energy Transition, LLC, has appointed Kiewit, through its subsidiaries Kiewit Engineering Group Inc. and Kiewit Energy Group Inc., to oversee the engineering, procurement, and construction of its planned four million tonnes per annum liquefied natural gas export terminal in the Port of ...

The lead contractor for this transformational project is Kiewit Corporation, and Hitachi Energy is providing the high-voltage direct current (HVDC) technology for the converter station. As part of the construction ...

Bouvet Island (/ ' b u: v eɪ / BOO-vay; Norwegian: Bouvetøya [3] [bu'vè:oeY?]) [4] is an uninhabited subantarctic volcanic island and dependency of Norway is a protected nature reserve, and situated in the South Atlantic Ocean at the southern end of the Mid-Atlantic Ridge, it is the world's most remote island. Located north of the Antarctic Circle, Bouvet Island is not ...

US-based Air Products and Kiewit Energy Group have agreed to work together to pursue smaller-sized liquefied natural gas (LNG) projects in North America. As part of the collaboration, Kiewit ...

For more than half a century, Kiewit has served domestic and international oil, gas and chemical (OGC) companies and project developers by offering full project delivery services for facilities of all sizes and complexities in the following sectors: offshore, oil sands, gas processing, pipeline facilities, tanks and terminals, liquid natural ...

Backed by nearly 140 years of construction expertise, Kiewit leverages its experience in the traditional oil and gas markets to provide innovative solutions for today's evolving energy infrastructure -- supporting the development of low-carbon alternatives, such as low-carbon hydrogen production pathways and derivatives like ammonia ...

Wind, solar, geothermal and hydroelectric have been a mainstay in the production of renewable energy for many years. Kiewit has been working in these markets for more than four decades, but the speed of innovation in renewable energy has increased significantly in recent years. For example, wind farms are expanding from on-land to offshore, ...

The island lies 1,700 km (1,100 mi) north of the Princess Astrid Coast of Queen Maud Land, Antarctica, 1,870 km (1,160 mi) east of the South Sandwich Islands, 1,845 km (1,146 mi) south of Gough Island, and 2,520 km (1,570 mi) south-southwest of the coast of South Africa. It has an area of 49 km² (19 sq mi), 93 percent of which is covered by a glacier. The centre of the island ...
