Is Kiribati embracing solar energy?

Poverty-stricken and energy-poor,the remote South Pacific island nation of Kiribati is embracing solar energy. Is its experience a model or a cautionary tale? BUARIKI,KIRIBATI -- As late as 1990,nightfall in Kiribati (pronounced "Kiribass"),a patchwork of tiny islands in the middle of the Pacific Ocean,was accompanied by a peculiar odor.

Is Kiribati a happy country?

"We're so much happier." Since 1991, the state-owned Kiribati Solar Energy Company (KSEC) has distributed approximately 4,400 home solar systems across 21 of the country's 33 islands and received millions of dollars in development assistance from Japan and then the European Union, according to Tavita Airam, the company's chief executive.

The more specific objective of the KGES is in expanding the use of renewable energy through the application of solar photovoltaic on outer islands and in urban districts. This complies with the government policy to provide rural ...
