

The Deye high-voltage battery pack control box (HVB750V/100A-EU) is a high-quality control unit designed for high-voltage battery packs (BOS-GM5.1). This control box enables efficient and safe management of high-voltage batteries and offers a variety of functions to ensure smooth operation of battery systems.

Current capacity: 100A nominal, 125A maximum; Operational temperature range: -20°C to 65°C; Protection rating: IP20; Dimensions: 440mm x 570mm x 150mm; Weight: 15.5kg; The Deye HVB750V/100AH H/V Cluster Control Box is the ...

Intelligent BMS It has protection functions including over-discharge, over-charge, over-current and over-high or low temperature. The system can automatically manage charge and discharge state and balance current and voltage of each cell. **Eco-friendly** The whole module is non-toxic, non-polluting and environmentally friendly.

The Deye High Voltage Battery Cluster Control Box empowers you with centralized management and enhanced safety features for your BOS-G-HVB750V/100A-EU high voltage battery system. Take command of your energy storage setup with real-time monitoring, safety assurance, and the convenience of remote accessibility.

The HVB750V/100A-EU High Voltage Battery Management System (BMS) is a cutting-edge solution designed for optimal performance and safety in managing high-voltage batteries. It helps to optimize the storage and discharge cycles of solar and wind energy syst

Intelligent BMS It has protection functions including over-discharge, over-charge, over-current, and over-high or low temperature. The system can automatically manage the charge and discharge state and balance the current and voltage of each cell.

Intelligent BMS It has protection functions including over-discharge, over-charge, over-current, and over-high or low temperature. The system can automatically manage the charge and discharge state and balance the current and voltage ...

This Deye HV Batteries Controller [HVB750V/100A-EU] is a high-quality and efficient controller for HV batteries. With a maximum voltage of 750V and a current capacity of 100A, it provides reliable and precise control for your energy needs. Benefit from its advanced technology and expert design for optimal performance.

Discover the Deye: BMU High Voltage Battery Cluster Control Box for BOS-G (Model: HVB750V/100A-EU). First, this tool has impressive technical data. It operates within a diverse voltage range of 120-750 Vdc. Additionally, it offers ...

The Deye High Voltage Battery Cluster Control Box empowers you with centralized management and enhanced safety features for your BOS-G-HVB750V/100A-EU high voltage battery system. Take command of your ...

Discover the Deye: BMU High Voltage Battery Cluster Control Box for BOS-G (Model: HVB750V/100A-EU). First, this tool has impressive technical data. It operates within a diverse voltage range of 120-750 Vdc. Additionally, it offers a nominal and max charge/discharge current of 100A and 125A respectively.

Intelligent BMS It has protection functions including over-discharge, over-charge, over-intensity, and over-high or low temperature. The system can automatically manage charge and discharge status and balance the current and voltage of each cell.

Current capacity: 100A nominal, 125A maximum; Operational temperature range: -20°C to 65°C; Protection rating: IP20; Dimensions: 440mm x 570mm x 150mm; Weight: 15.5kg; The Deye HVB750V/100AH H/V Cluster Control Box is the cornerstone of efficient and reliable high-voltage energy management.
