

Will Kosovo use solar energy for district heating?

In late December 2022, Kosovo became the first country in the Western Balkans Economy to use solar energy for district heating. Kosovo's Minister of Finance, Labour and Transfers, Hekuran Murati, said the project would ensure access to the central heating system for about 38,000 citizens.

Does Kosovo have solar power?

Kosovo has the potential of capturing solar energy directly and converting it to electricity. The region of highest solar potential based on global horizontal irradiation is the southeastern part of Kosovo, centred around the city of Gjakova. Solar power is already used on the roofs of some buildings.

How Unisolar is developing our country?

Here you can see how we are developing our country, with the tireless work of our team ... Unisolar LLC, was founded in January 2021, by electrical energy engineers and the renewed one: Mr. Bujar Guci in Kosovo. Unisolar LLC was founded seeing the need for a serious company, which would be closer to the customers in the field of renewable energy.

Through innovative initiatives like the rooftop solar assessment, USAID is helping to increase awareness of and build the enabling environment for climate-friendly, sustainable electricity generation across Kosovo.

Kosovo's geographic position makes it extremely well-placed for small-scale and large-scale solar PV development. The pace of development for solar projects in Kosovo is increasing. There is growing interest from investors to engage in developing new solar capacities across the country.

To support the green transition in Kosovo*, the European Investment Bank (EIB) has signed a EUR33 million investment loan for the construction one of its largest solar photovoltaic plants near Pristina - with a capacity of up to 100 MWac (120MWp).

To support the green transition in Kosovo*, the European Investment Bank (EIB) has signed a EUR33 million investment loan for the construction one of its largest solar photovoltaic plants near Pristina - with a ...

Founded in Kosovo with a bold mission to promote sustainable development in the region, JAHA Solar enables high-quality photovoltaic modules and energy solutions. JAHA Solar is the first and largest manufacturer of photovoltaic modules in the region.

Despite being geographically well suited for developing solar energy, Kosovo is facing legal, administrative, and financial barriers such as prolonged authorization procedures, solar PV installed capacity limitation, lack of RES skills and capacities, protracted legalization process, lack of public awareness, and modest support schemes, that

Unisolar L.L.C. is the exclusive representative of the company AE SOLAR GMBH, for photovoltaic panels in the Republic of Kosovo and Albania. This made us proud as a company, motivating us to achieving the highest possible successes in the field of renewable energy.

During the ceremony, YILDIRIM Energy unveiled its ambitious solar energy project in Kosovo, which involves installing solar panels with a capacity of 109 MW in the municipality of Drenas. This project is expected to significantly contribute to decarbonizing Kosovo's energy production and improving its energy infrastructure and economy.
