

Will Kosovo use solar energy for district heating?

In late December 2022, Kosovo became the first country in the Western Balkans Economy to use solar energy for district heating. Kosovo's Minister of Finance, Labour and Transfers, Hekuran Murati, said the project would ensure access to the central heating system for about 38,000 citizens.

Does Kosovo have solar power?

Kosovo has the potential of capturing solar energy directly and converting it to electricity. The region of highest solar potential based on global horizontal irradiation is the southeastern part of Kosovo, centred around the city of Gjakova. Solar power is already used on the roofs of some buildings.

Who is Unisolar LLC?

Unisolar LLC was founded seeing the need for a serious company, which would be closer to the customers in the field of renewable energy. In a short time the company Unisolar L.L.C. became a leader in the field of renewable energy in Kosovo and the region.

How Unisolar is developing our country?

Here you can see how we are developing our country, with the tireless work of our team ... Unisolar LLC, was founded in January 2021, by electrical energy engineers and the renewed one: Mr. Bujar Guci in Kosovo. Unisolar LLC was founded seeing the need for a serious company, which would be closer to the customers in the field of renewable energy.

The application for efficient household appliances can be made at <https://ekosova.rks-gov /467>. The application for renewable energy systems - solar system for sanitary water heating can be made at: <https://ekosova.rks-gov /468>. Complete information can be found in the following links:

Unisolar L.L.C. is the exclusive representative of the company AE SOLAR GMBH, for photovoltaic panels in the Republic of Kosovo and Albania. This made us proud as a company, motivating ...

Small businesses currently pay the highest electricity rates in Kosovo, and households in rural areas experience the most power outages. By installing these panels, USAID and Jaha Solar are stimulating interest in solar energy as an inexpensive and reliable power source.

The solar power plant will help save more than 130,000 tonnes of carbon dioxide emissions annually. In total, 152 GWh of green electricity will be produced annually, benefiting Kosovo households, public institutions and companies.

DT Global is proud to help Kosovo on its path to sustainable energy. As Afrim Sylja, Managing Partner at Elen--a solar energy company--says, "alternative energy [...] is the future; it is cheaper, safer, and healthier."

See USAID's video for more on how solar is transforming Kosovo's energy sector.

This investment project will install a solar photovoltaic plant of up to 100 MW capacity on former ash dump fields near Kosovo A thermal power plant. This will be the first large-scale solar photovoltaic plant in Kosovo and will increase installed capacities tenfold from 10.1 MW to ...

Unisolar L.L.C. is the exclusive representative of the company AE SOLAR GMBH, for photovoltaic panels in the Republic of Kosovo and Albania. This made us proud as a company, motivating us to achieving the highest possible successes in the field of renewable energy.

Despite being geographically well suited for developing solar energy, Kosovo is facing legal, administrative, and financial barriers such as prolonged authorization procedures, solar PV installed capacity limitation, lack of RES skills and capacities, protracted legalization process, lack of public awareness, and modest support schemes, that

To support the green transition in Kosovo*, one of its largest solar photovoltaic plants will be constructed on former ash dump fields near Pristina with a capacity of up to 100 MW. The electricity sector in Kosovo is almost entirely dependent on coal-fired power plants.

The EIB is providing EUR33 million for the construction of one of Kosovo's largest solar photovoltaic plants. In line with the EU Global Gateway initiative, the project will also benefit from a EUR29 million loan from the KfW ...

The EIB is providing EUR33 million for the construction of one of Kosovo's largest solar photovoltaic plants. In line with the EU Global Gateway initiative, the project will also benefit from a EUR29 million loan from the KfW Development Bank and a EUR32 million EU grant channelled through the Western Balkans Investment Framework
