The average cost of a 10.8 kW solar panel installation on EnergySage is \$20,948 after federal tax credits. You'll probably save anywhere from \$28,000-\$120,000 over 25 years by going solar. Solar panels are just 12% of the total cost of a solar panel installation.

How much does a rooftop solar panel cost?

The price per panel can range from \$150 to \$500, depending on the quality and brand. The number of panels required depends on your energy needs and the available roof space. 2. Labor: The labor cost for installing rooftop solar panels can range from \$2,000 to \$5,000.

Should you install a solar energy system on your roof?

When you install a solar energy system, you're getting more than just solar panels on your roof. Multiple pieces of equipment, such as racking, wiring, and inverters, must be installed so the solar panels can power your home. There are also a number of costs that ensure your system is installed correctly and that the solar company can operate.

How much does solar panel maintenance cost?

Solar panel maintenance costs: Solar panels have no moving parts, so very little maintenance is required. However, getting routine professional solar panel cleaning and inspections every two years can keep your system in tip-top shape. These solar maintenance costs can be about \$300 per session.

How much does a solar panel repair cost?

Most homeowners spend between \$200 and \$1,250 on solar panel repairs or an average of \$720. But what you'll pay for solar repairs depends on the type of panel, its size, and the extent of its damage. Small fixes could cost as little as \$100, while extensive repairs or replacements could add up to \$3,600 or more.
