

Laos Buffalo Dairy 10/9/20 Laos Buffalo Dairy 10/9/20 Conscious Traveler Podcast: Episode 3: Case Study--Sustainable Tourism in Luang Prabang, Laos On this episode, we talk to Jo Smith about Ock Pop Tok, the textile workshop and visitor center she and her Lao partner, Veomanee Douangdala, established there over a decade ago, and why it's ...

Although buffalo milk is very nutritional--it's actually higher in calcium and protein than regular cows' milk and lower in cholesterol too--these cheese-loving aficionados soon realized that in this land chock full of buffalo, ...

Let me explain. In Laos, it's very atypical for rural farmers to have a bank account with a routing number etc. Instead, they buy a buffalo and use this to barter and trade. Laos Buffalo Dairy rents buffalo from local farmers, giving locals a regular income from an otherwise underutilized resource {the buffalo}.

The Lao People's Democratic Republic (Lao P.D.R) gets more than 70 % of its energy from conventional sources, which emphasizes the urgent need to switch to renewable energy. This ...

The Lao People's Democratic Republic (Lao P.D.R) gets more than 70 % of its energy from conventional sources, which emphasizes the urgent need to switch to renewable energy. This study looks at the supply and demand scenario for energy in the Lao P.D.R.

OverviewOther renewable energy resourcesFossil fuelHydropowerNatural history of the Mekong River basinEnvironmental effects of hydropowerPower companiesSee alsoAside from large-scale hydro power, Laos has also significant small-scale hydro and solar energy potential. Laos adopted the Renewable Energy Development Strategy in 2011 and set a target of 30% small-scale renewable energy in the energy production by 2025; to achieve the target Laos could improve renewable energy governance, adopt a feed-in tariff, build an effective regulatory framework and facilitate market entry for foreign investors.

The Story Behind Laos Buffalo Dairy. In 2010, business commitments in Singapore brought our two families together for what would prove to be a very fortuitous meeting. After many years of either working for multi-national corporations or running our own companies, we (Susie, Steven, Rachel) discovered that we had complementary skill sets and ...

When looking for a location to produce the medicated feed blocks locally, AgCoTech's obvious answer was the site of Laos Buffalo Dairy. They share a similar mission to improve the rural prosperity, welfare, nutrition, ...

We analyzed and compared energy and macronutrient concentrations of WB milk and liquid and dried acid

whey to DC milk and acid whey data in the 2020 USDA nutrient database to determine potential as a locally-sourced protein supplement. Methods: WB milk and whey samples were obtained from the Lao Buffalo Dairy in Lao PDR.

ASEAN member Laos has plans to increase renewable energy in its power mix, notably solar power buildout. However, it continues to rely on hydropower and coal-fired power plants to generate electricity, complicating both its way forward and decarbonisation plans.

Buffalo milk has 50% more protein than cows milk, 40% more energy in calories, nearly 40% more calcium and has high levels of antioxidants. Buffalo milk has a higher fat content which makes it perfect for making cheese and ice cream.

When looking for a location to produce the medicated feed blocks locally, AgCoTech's obvious answer was the site of Laos Buffalo Dairy. They share a similar mission to improve the rural prosperity, welfare, nutrition, and health of the local population, with a focus on buffalo farming and childhood nutrition, and a similar approach to business.
