

What is bluetti solar +?

BLUETTI Solar + is an innovative and cost-effective solution for integrating both solar and battery systems into your home at a price comparable to what our competitors charge for solar alone. We understand that the key to unlocking substantial long-term savings with solar lies in the effective combination of solar panels and battery storage.

Is bluetti solar + suitable for apartments or condos?

BLUETTI Solar + is ideal for houses that receive direct sunlight. Unfortunately, it's not suitable for apartments or condos. The system's compatibility also depends on the specific conditions of your roof. For more detailed information and to determine if your home is a good fit, we recommend consulting with our energy experts.

Why did Jan Leo buy the bluetti ESS?

Jan Leo purchased the BLUETTI ESS in response to the excess solar energy generated by his system. Seeking a solution for efficient energy storage, he was drawn to its modular design, affordability, and built-in backup power. Leo aims to optimize self-consumption, reduce reliance on the grid, and enhance his sustainability efforts.

Why did Ray David invest in bluetti ESS?

Mr. Ray David, a 44-year-old entrepreneur, invested in BLUETTI ESS to combat rising electricity costs. His home now operates independently, utilizing expandable storage capacity, reducing reliance on the grid. The protagonist, a homeowner, invests in BLUETTI ESS for energy independence.

How many patents does bluetti have?

It currently holds nearly 700 national patents, including more than 100 invention patents. BLUETTI's business scope has covered more than 110 countries, and it has branches in major markets such as the United States, Japan, Germany, France, Spain, the Netherlands, Australia, Brazil, South Africa, etc.
