

What is a solar generator kit?

A Solar Generator Kit has everything you need to go solar quickly and easily. Whether you want to keep your devices powered up during a blackout or take power with you on the go, Solar Generator Kits from Shop Solar have the top portable power stations on the market yet still manage to save you 50% or more on the cost of a solar power system.

Which solar generator should I buy?

Anker is another leader in the backup power space, and the Anker 757 solar generator is the model I recommend to friends and family who are looking for top value. It impressed our testers with its smart design, solid construction and competitive pricing.

Are solar generators portable?

Solar generators are available as both portable generators and backup home generators. Most solar generators are portable, lightweight, and have a built-in handle. The best portable solar generators are used to provide power for construction sites, campers, events, or other settings where access to electricity is limited.

What is the best solar generator?

Overall, our choice for the top solar generator is the Jackery Portable Power Station Explorer 500, which provides over 500 watt-hours and eight output ports, but is still lightweight enough to bring with you on the go.

What size solar generator do I Need?

If you want backup power for two days, you'll need a pretty big solar generator. Generally, the same criteria that applies to power output also applies to capacity. In fact, you'll find that the power output and capacity on most solar generators are roughly matched. For small appliances and electronics a 200Wh-700Wh solar generator is ideal.
