

Who is AESC?

About AESC AESC is a global leader in the development and manufacturing of high-performance batteries for zero-emission electric vehicles and energy storage systems.

Why is AESC a global company?

"AESC is building an incredible global team to meet the needs of the market and our customer base," said AESC CEO for U.S. and Europe Knudt Flor. "As our organization grows in the United States and Europe, we are expanding our leadership team to meet challenges and continue making the highest quality batteries in the world," he added.

Where are AESC batteries made?

AESC is expanding its footprint in the United States with gigafactories in Kentucky, South Carolina, and Tennessee to meet the growing demand for EV and BESS batteries and strengthen its presence in the North American market. AESC's Tennessee gigafactory in Smyrna, which has been operational since 2012, produces batteries for Nissan.

Who are AESC's new leaders?

"AESC is excited to welcome Kai, Alpay, Songtao and Rajto our global leadership team. Each of these leaders brings a wealth of experience and a deep understanding of their respective functions," said AESC Group CEO Shoichi Matsumoto.

Frédérique Genton, Founder of arteLatum, an executive search, leadership consulting, interim management and board advisory company active on the German-DACH-France market is joining the HTP group as a Partner.
