

The research group aims at solving the fundamental and key problems in material preparation, electrolyte formulation, and battery design, and serving the practical applications of new materials and devices for battery and hydrogen energy ...

Our lithium iron phosphate (LFP) battery system offers safe, long-lasting energy storage with smart BMS, 81kWh expandability, and 48V inverter compatibility. It's ideal for residential, commercial, and off-grid applications, ensuring efficient, ...

The research group aims at solving the fundamental and key problems in material preparation, electrolyte formulation, and battery design, and serving the practical applications of new materials and devices for battery and hydrogen energy commercialization.

The Portuguese Environment Agency has already issued a favorable environmental impact statement, albeit conditional, for the project by Chinese lithium battery company China Aviation Lithium Battery Technology (CALB), which plans to build a factory in Sines, reports Expresso on March 14.

The governments of Macau and Hengqin on Wednesday signed a cooperation framework agreement with the world's largest electric vehicle (EV) battery manufacturer, Contemporary Amperex Technology Company Limited ...

Following the establishment of a "Lithium Valley", the city now has 30 lithium battery-related enterprises. A complete lithium battery industrial chain covering lithium salt processing, cathode and anode materials production, auxiliary materials manufacturing, battery assembly, and the recycling of waste batteries, has taken shape.

On an official mission to China, the governor of Minas Gerais, Romeu Zema, presented the Vale do L&#237;tio project to representatives of Ganfeng Lithium. The Secretary of State for Economic Development, Fernando Passalio, highlights that Minas has already taken an important step in making lithium extraction a reality in the Jequitinhonha Valley ...
