

Can a Magna fuel tank be installed in a car?

All the components, including mandatory impact protection, are accommodated in a single frame, so installing them in the vehicle is quick, simple and safe. Learn more about Magna's fuel tank systems for cars, trucks or alternative energy storage systems.

Does Magna manufacture fuel tank caps?

As well as fuel tank systems, Magna also develops and manufactures the associated caps and components. Our range encompasses filler, urea, oil and radiator caps. Our reliable products meet the toughest safety and environmental standards, at the same time as providing maximum ease-of-use for the driver.

Why should you choose Magna for your fuel tank system?

Magna are experts in fuel tank systems and filler pipe technologies, regardless of whether they are plastic or metal. Magna also produces many of the components required to manufacture filler pipes, so we can find design solutions that provide optimum performance and the highest levels of safety.

What makes Magna a great tank mounting system?

Magna has developed a sophisticated mounting system that makes the most of the available tank space. Our new solution requires a fraction of the number of parts used in traditional systems, and removes the need for L-shaped brackets, rubber supports and straps.

Does Magna carry diesel and urea in a single tank?

To solve this problem, Magna has developed the Combi Tank, a hybrid solution that carries diesel and urea in a single tank. The innovative system features Inner Layer Coating (ILC) technology allowing urea to be transported safely. The Combi Tank also comes with special baffles, which are attached using a mechanical process known as clinching.

Find company research, competitor information, contact details & financial data for MAGNA Energy Storage Systems GmbH of Neumarkt i.d.OPf., Bayern. Get the latest business insights from Dun & Bradstreet.

Magna develops and manufactures high-quality dual-fuel CNG fuel-tank systems. These fuel tank systems consist of a deep-drawn plastic tank for gasoline and several CNG type IV containers. All the components, including mandatory impact protection, are accommodated in a single frame, so installing them in the vehicle is quick, simple and safe.

Unsere Fachleute für Druckwasserstoffspeichersysteme (Compressed Hydrogen Storage Systems - CHSS) und Flüssigwasserstoffspeichersysteme (Liquid Hydrogen Storage Systems - LHSS) bereiten sich auf alles vor, was die Zukunft bringt.
