

Providing Maldives resorts a full solar power solution, Atoll Solar ensures you reap the maximum return from your solar energy investment. From installation to maintenance, our trained and certified team is committed to make solar power a seamless process for your property.

With this project aiming to have a cumulative installation of 6.5MW solar photovoltaic installations in the Maldives, the commencement of the solar panel project on the Link Road is the most large scale solar-project to be carried out in the Maldives.

Solar PV systems will be provided exclusively to residential properties. Residences will be selected in the order that applications are received. Applications can be submitted via the Fenaka Corporation website.

I am pleased to present this solar resource overview of the Maldives, as a first publication in the series to provide accurate data on solar radiation in the Maldives. The report is aimed at reducing the gap in

Environment Ministry has opened applications for the installation of rooftop solar panels at households as part of "Magey Solar" program. The program, funded by the Asian Development Bank (ADB), is a joint initiative of the Ministry and Fenaka Corporation with the company carrying out the installation of the solar panels.

With this project aiming to have a cumulative installation of 6.5MW solar photovoltaic installations in the Maldives, the commencement of the solar panel project on the Link Road is the most ...

The Magey Solar program aims to streamline access to solar energy for residents while also reducing public expenditure on electricity. Eligible participants must be customers of Fenaka with an active electricity subscription.
