

What is the global microgrid market size?

The global microgrid market size was valued at USD 9.88 billion in 2023 and is projected to grow from USD 11.24 billion in 2024 to USD 37.35 billion by 2032, exhibiting a CAGR of 16.19% during the forecast period. Asia-Pacific dominated the microgrid market with a market share of 43.02 % in 2023.

How is the microgrid market segmented based on grid type?

Based on grid type, the microgrid market is segmented into AC microgrid, DC microgrid and hybrid. The hybrid segment is set to expand at a CAGR of over 20.9% through 2032. Growing adoption of solutions offering substantial economic advantages by reducing energy costs and providing financial resilience is fostering the product demand.

Which sector is in demand for a microgrid system?

The commercial and industrial sector represents the primary end-user where microgrid systems with power ratings ranging from 1 MW to 5 MW are in demand. Asia Pacific to grow at the highest CAGR during the forecast period. Microgrid Market by Region To know about the assumptions considered for the study, download the pdf brochure

Why is the Asia-Pacific microgrid market growing?

The Asia-Pacific microgrid market is poised for significant expansion in the forthcoming years, driven by various factors. These include the escalating demand for dependable and resilient power supply, the growing emphasis on renewable energy sources, the increasing implementation of smart grid technologies, and supportive governmental policies.

What are the key factors affecting the microgrid market?

The microgrid market is expected to have a robust growth during the forecast period, primarily due to two main factors, i.e., the global demand for clean energy generation and a self-sufficient source of power generation in times of crisis or grid disconnection.

Which region will dominate the microgrid market during the forecast period?

The Asia-Pacific region is expected to dominate the market during the forecast period due to a high rate of electrification, mainly for rural or semi-urban areas. This section covers the major market trends shaping the Microgrid Market according to our research experts:

Microgrid Market Research, 2030. The Global Microgrid Market size was valued at \$15.88 billion in 2020, and is projected to reach \$59.74 billion by 2030, registering a CAGR of 14.9% from 2021 to 2030. A microgrid is a self-reliant, ...
