

Where is solarduck based?

The updated plant was installed in June 2024. SolarDuck is targeting sun-rich regions worldwide, including the Mediterranean, Caribbean, and Southeast Asia. Japan, with its nuclear phase-out and limited land space, offers significant potential for offshore floating solar.

Does Bureau Veritas support solarduck?

Bureau Veritas (BV) has been actively supporting SolarDuck in its pioneering efforts to develop floating solar solutions. The certification of the Merganser prototype follows the approval in principle (AiP) granted for its floating structure.

How did solarduck win a wind farm tender in 2022?

SolarDuck partnered with RWE and won the Hollandse Kust West offshore wind farm tender in November 2022. In 2022, SolarDuck opened an office in Fornebu, Oslo to coordinate global sales. Recognizing the need for offshore testing, SolarDuck chose the challenging conditions of the North Sea.

The Oslo-based organisation Katapult Ocean invests in and supports start-ups that have a positive impact on oceans. SolarDuck has been selected out of 1500 applications to the final selection. During the intense accelerator program SolarDuck was pushed forward in the field of business strategy, entrepreneurial skills and investor readiness.
