

Aiming to re-shape the energy system in Mayotte, the MAESHA project is a part of an initiative to decarbonise EU islands. Of the five islands that will participate in an energy transition, Mayotte ...

La solution innovante contribue à développer le potentiel solaire de Mayotte tout en préservant ses terres fertiles. Seulement voilà, elle nécessite un terrain sans relief.

Pour Mayotte, EDM investit dans le développement et la constitution de centrales photovoltaïques permettant ainsi de réduire les émissions d'effet de serre tout en contribuant à la transition ...

MAESHA will demonstrate the solutions on the French overseas island of Mayotte and study replicability potential on 5 follower islands representing more than 1.2 million inhabitants spread in geographical Europe and overseas territories.

Solar panels in social housing Installation of solar panels on social housing and temporary housing in Koungou. Workshops with inhabitants will allow best practices sharing to reduce energy consumption. Decarbonizing mobility Training of young people to maintain and repair e-bikes, in partnership with local associations; newly trained

Mayotte, a French overseas island region located in the northern Mozambique Channel in the Indian Ocean, is at the forefront of an innovative initiative paving the way towards a sustainable energy future: the MAESHA project.

Sun Water Fire's innovative technology offers a unique opportunity for Mayotte to achieve energy independence, enhance water management, and tackle climate adaptation in a transformative way ...

Mayotte, Albioma exploite un parc photovoltaïque d'une capacité installée de 15,3 MWc. Ses centrales sont toutes implantées dans des zones sans conflit d'usage, comme celle du marché de Mamoudzou qui est, avec ses 725 KW de panneaux solaires, la plus puissante installation en ...

Aiming to re-shape the energy system in Mayotte, the MAESHA project is a part of an initiative to decarbonise EU islands. Of the five islands that will participate in an energy transition, Mayotte is the first to try and test an innovation project of this kind.

French renewable power producer and developer Akuo has officially opened a 1.2-MW solar park equipped with an integrated energy storage facility on the island of Mayotte in the Indian Ocean. The Hamaha

photovoltaic (PV) plant will support the archipelago's goals of adding 60 MW of renewable energy capacity by 2028 to the 25 MW already ...

Mayotte, Albioma exploite un parc photovoltaïque d'une capacité installée de 15,3 MWc. Ses centrales sont toutes implantées dans des zones sans conflit d'usage, comme celle du marché ...

HAMAHA, in Mamoudzou, makes use of a non-buildable former landfill, thanks to the installation of 1.2 MWp of solar panels on a now secured site. A 2.5 MWh battery will also allow for injection at peak hours in the evening.

Pour Mayotte, EDM investit dans le développement et la constitution de centrales photovoltaïques permettant ainsi de réduire les émissions d'effet de serre tout en contribuant à la transition énergétique du département. Elle constituera une part significative du mix énergétique.
