

MFT Energy's trading teams have in-depth knowledge of the supply and demand dynamics in their respective markets and regions and are available for trading 24/7. Our business model and excellence in data analytics will create significant market opportunities in the ongoing green transition. As our business model converts market knowledge and ...

To me, the MFT Energy Graduate Program was a perfect opportunity to stretch myself professionally while at the same time chase my ambitions to work abroad for a period of time. It is a role in which performance is a given, but it resides in the MFT work culture also to provide employees with the most optimal conditions through what can best be ...

Med et par solide opstartsår i bagagen og store forventninger til 2020 er energihandelsvirksomheden MFT Energy klar til at sætte yderligere fart påvæksten. MFT Energy vil ikke alene være verdens bedste af sin slags - målet er en børsnotering inden for tre år. Og for at det kommer til at ske, sætter MFT Energy et velkendt navn i spidsen.
