

USTDA's technical assistance will advance Saint Lucia's efforts to build resilient microgrid infrastructure that can withstand severe weather events and provide continued power supply to hospitals, schools, communications towers, and water treatment plants.

Asante Energy has become the leader in renewable energy based microgrids in the Caribbean. Our project list includes the following countries: Guyana; St. Vincent & The Grenadines; Saint Lucia; Montserrat; Antigua & Barbuda; Anguilla; Turks & Caicos Islands; St. Croix; British Virgin Islands; The Bahamas

The island's utility company, St. Lucia Electricity Services Limited (LUCELEC), with support from RMI, completed the 4 megawatt system just north of Hewanorra International Airport in August 2018. And in the first three years of operation, it produced 24.7 million kWh of electricity -- enough to power 3,500 homes -- saving 1.5 million ...

USTDA's assistance will help develop an enabling regulatory environment for renewables and assess the feasibility of implementing six solar-plus-storage microgrids at critical facilities in Saint Lucia. The NURC selected the Colorado-based RMI to carry out the assistance.

The project aims to prepare, develop, and de-risk Saint Lucia's first aggregated critical facilities microgrids project. RMI will provide and manage technical, financial, and legal advisory services to assist the NURC.
