

Idaho National Laboratory (INL) announced last week that it will collaborate with ProtoGen, a Pennsylvania-based energy consulting company and microgrid developer, on the design, siting and development of a microgrid resilience corridor that will span parts of Pennsylvania and New Jersey.

The Project is a result of a partnership between NJ TRANSIT, the New Jersey Board of Public Utilities, the U.S. Department of Energy (DOE), and the Federal Transit Administration (FTA). ...

The Center for Resilient Design has launched the Community Microgrids Planning Academy--a multi-media online educational platform designed to instruct jurisdictions on how to collect, ...

ETAP Microgrid software allows for design, modeling, analysis, islanding detection, optimization and control of microgrids. ETAP Microgrid software includes a set of fundamental modeling tools, built-in analysis modules, and engineering device libraries that allow you to create, configure, customize, and manage your system model.

New Jersey Board of Public Utilities . Town Center Distributed Energy Resources Microgrid Incentive Program . Phase II Design Incentive Application TCDER Microgrid Program Phase II Design Incentive Application for The Camden Microgrid Sustainability Loop Project Page iii LIST OF FIGURES Figure 1: Project Maps: Microgrid Cluster Customers ...

General Background of the TCDER Microgrid Design Incentive Program A TCDER Microgrid, for the purpose of this Program, is defined as a cluster of critical facilities ... 5 In the Matter of New Jersey Board of Public Utilities Microgrid Report Town Center DER Microgrid Program - Phase II Detailed Designed Incentive Application, BPU Docket No ...

Networked Microgrid Cybersecurity Architecture Design Guide - A New Jersey TRANSITGRID Use Case. November 2022; Report number: SAND2022-15760 ... Microgrids require reliable communication systems ...

Technical Report: Networked Microgrid Cybersecurity Architecture Design Guide: A New Jersey TRANSITGRID Use Case ... Microgrids require reliable communication systems for equipment control, power delivery optimization, and operational visibility. To maintain secure communications, Microgrid

Operational Technology (OT) networks must be ...

New Jersey Gov. Phil Murphy this week unveiled the state's energy master plan, which includes provisions to facilitate the proliferation of microgrids in the state. The plan is intended to move the state toward a goal of ...

Identify the Microgrid configuration and if the Microgrid project repurposed or reconfigured existing DG or if it was a completely new project. The Microgrid Program grants and loans may be ...

In response to Hurricane Sandy, New Jersey Transit is developing a microgrid system to power rail transit operations between northern New Jersey and Manhattan in the event of an outage. ...

Search effectively through large design spaces for efficient alternatives; Investigate the simultaneous impacts of several design options; Gain a quantitative understanding of the relationships between design objectives and the tradeoffs associated with alternate technologies; Derive defensible, quantitative evidence for design decisions

New Jersey regulators seek feedback by Dec. 13, 2019 on the second phase of the town center microgrid program, which will allot \$4 million for project design. Two years ago, in the program's first phase, the Board of Public Utilities distributed \$2 million to 13 town center microgrids for feasibility studies. Those microgrids will be eligible ...

distributed generation systems, in the form of microgrids, are providing much-needed stability to an aging power grid. A facility's energy demand is key to the design of a microgrid system. To ...

One of the largest microgrid projects in the country and one of the few proposed to support mass transit is moving forward in New Jersey. On June 18, New Jersey Transit completed a public hearing for its NJ Transitgrid project. The comment period for the environmental impact statement for the project is open until July 19, 2019.
