AES India and Japan's Mitsubishi Corporation have begun construction of a 10MW solution, India's first grid-scale energy storage system. The solution will serve the electric grid, which will be operated by India-based Tata Power Delhi Distribution Limited (Tata Power-DDL).

Prevalon Energy, a dedicated BESS spin-out from Mitsubishi Power Americas, has secured a 328MWh order from utility Idaho Power in the US. The company announced the contract with Idaho Power for ...

While refining and ammonia production have traditionally been the key consumer sectors for hydrogen, new uses such as transport and energy storage are set to influence the market. While green hydrogen presently has a small share in the overall production mix, it is poised to increase given the ambitious targets announced by various countries.

Renewable energy developer Votalia will build a 5-hectare photovoltaic park at the Guiana Space Centre in Kourou, French Guiana. The park will have a capacity to generate 4.2MW of solar energy. It is expected to be operational by June 2023.

Tapping the power of the sun, Siemens Energy will set up a hybrid plant to supply stable baseload electricity to 10,000 households in French Guiana. An intelligent combination of 55 MW photovoltaics, an electrolyser to produce green hydrogen, fuel cells and energy storage is scheduled to be commissioned in the autumn of 2023.

Image: Advanced Clean Energy Storage I/Mitsubishi Power Americas. In an interview with Energy-Storage.news earlier this year, Mitsubishi Power Americas SVP for energy storage Tom Cornell said that it is likely the transition to 100% green hydrogen can actually be achieved much earlier, sometime between 2030 and 2035.

Hydrogen energy storage - French hydrogen specialist HDF Energy have announced their Centrale électrique de l'Ouest guyanais (CEOG) project, which will be one of the world's biggest solar-plus-storage power ...

Renewable energy developer Voltalia will build a 5-hectare photovoltaic park at the Guiana Space Centre in Kourou, French Guiana. The park will have a capacity to generate 4.2MW of solar energy. It is expected to ...

This power plant will reinforce the Toco storage complex. Located in French Guiana, the Toco complex is one of the largest storage systems in France, with 12.6 MW/16.5 MWh in operation and 0.5 MW/0.6 MWh under construction. ... The main winner of a call for projects from the French Energy Regulatory Commission in 2018, Mana Stockage benefits ...

Renewable power plants operator Voltalia SA on Thursday announced the commissioning of its 5-MW Parc Sable Blanc solar farm with an integrated storage system in French Guiana. The Paris-based company secured the project in a government tender for solar projects in non-interconnected zones (ZNIs) in May 2021. The guaranteed tariff contract for ...

Mitsubishi Power Americas will supply the battery energy storage systems (BESS). They are most likely the same three totalling 150MW/600MWh that Mitsubishi Power Americas announced it was providing for Origis for projects in the "Southeast US", back in December last year, reported by Energy-Storage.news at the time.

In an article to be published in the forthcoming 24th Volume of our quarterly technical journal PV Tech Power, Janice Lin, founder and president of the Green Hydrogen Coalition industry group writes that modelling of a ...

Mitsubishi Power Americas" spinout BESS solution firm Prevalon has entered into a long-term supply deal with lithium-ion battery OEM Rept. ... Energy-Storage.news" publisher Solar Media will host the 2nd Energy ...
