

Why should you choose Modula automatic vertical storage solutions?

Modula automatic vertical storage solutions are designed to save space and time and improve process efficiency. The automatic vertical tray warehouses were designed according to the "goods-to-man" principle: there is no need for operators to move around the warehouse to pick or refill your goods.

What is a Modula automatic vertical tray warehouse?

Modula automatic vertical tray warehouses allow you to store goods in an clean,tidy,safe and fast-moving system,reducing the number of movements operators need to make and avoiding damage to your goods. Modula automatic vertical storage solutions are designed to save space and time and improve process efficiency.

What types of storage options does Modula offer?

Internal and external bays, with single or dual delivery levels, displaced bays, with standard or oversize unit heights. Modula offers a unique range of configurations, so you can choose the ideal type of product for each kind of storage and see which one best suits your needs for space, picking and refilling.

What is a modular vertical storage solution?

Created to make the most of available vertical space and save floor space at the same time,Modula automated vertical storage solutionsare suited to any type of product,in any industry sector or environment,and can be customised to various payloads,heights,sizes and options.

Why should you choose Modula?

Modula has more than 30 years of experience designing and producing automated vertical warehouses. With four manufacturing centers worldwide,we deliver consistent,high-quality products. Regardless of your industry or your warehouse's complexity,Modula always has an appropriate solution for you. Modula Storage and Picking Solutions

What is a Modula automated warehouse?

Modula automated warehouses,combined with our warehouse management systems,are the ideal response to companies' storage and picking requirements,regardless of the industry sector or the type of item to be stored.

Modula Next. Modula Next is an innovative automated storage and retrieval solution, that combines the space-saving and efficiency of Vertical Lift Modules (VLMs) with all the precision and control of industrial vending machines.. ...

Products. Key Benefits of AutomationTransform your operations with Modula"s solutions Automated storage solutions boost productivity and accuracy, increase storage capacity, and enhance worker safetyDiscover all benefits; Key ...

With Modula vertical storage solutions, companies can quickly see a return on investment as fast as 6 months depending on the overall size of the project. Moreover, the Modula unit can be delivered, installed and loaded within an ...

Apex Tools & Orthopedics Enhances Efficiency and Expands Storage Capacity with Modula Lifts Case Study Summary. Apex Tools & Orthopedics, a member of the Colson Medical Group and a subsidiary of the Marmon Group under ...

Vertical storage solutions are perfect for making the most of the height available in buildings, saving floor surface. These products are the ideal answer for a clean, tidy, safe and fast-moving warehouse.
