

The company offers completely integrated towers and foundation designs that provide harmony in the hoisting process through rotor orientation methods to access wind turbines in the high sea, enabling clients to reduce the cost of power generation and also produce sustainable energy.

The two companies agreed to examine the possibility of a joint venture including the development and operation of an offshore wind power plant with a capacity of approximately 2 GW, as well as the development of a ...

2-B Energy will introduce and commercialize at a global level, an offshore wind power plant concept with significant lower Cost of Energy produced. The first demonstration turbine was installed in Eemshaven (NL) in Q4 2015. At 2-B Energy, we aim to have the members of our team inspired and integrated in the overall design process.

At 2-B Energy, we aim to have the members of our team inspired and integrated in the overall design process. Here thinking out of the box in combination with realistic view and completion are fundamental drivers among the colleagues. Therefore the 2-B team is a unique group where tradition is challenged and realization is a virtue.

The President of the Board of Directors of Elektroprivreda Crna Gora (EPCG) Milutin Dukanovic and the Vice Presidents of the Polish company Respect energy Holding, Tomasz Zadroga and ...
