

Montserrat inaugurated a major solar PV project, with the Premier saying the island would continue to develop both solar PV and geothermal energy projects. The 250KW solar PV plant has entered into commission, and will deliver 10% of Montserrat"s load demand.

Beverly -- Montserrat College of Art will begin a greening of the campus with a vast, multi-building solar array beginning this summer. The project will generate the bulk of the electric energy needed to run the campus, and result in beneficial solar incentives to the college over the life of the program of about \$1.3 million.

Introducing the AS500-550M-96 by Amso Solar, a game-changing solar panel that represents the pinnacle of renewable energy technology. These panels exemplify cutting-edge innovation and unwavering reliability, making them the ideal choice for a wide range of solar applications, from residential installations to large-scale commercial projects.
